Mobile Command

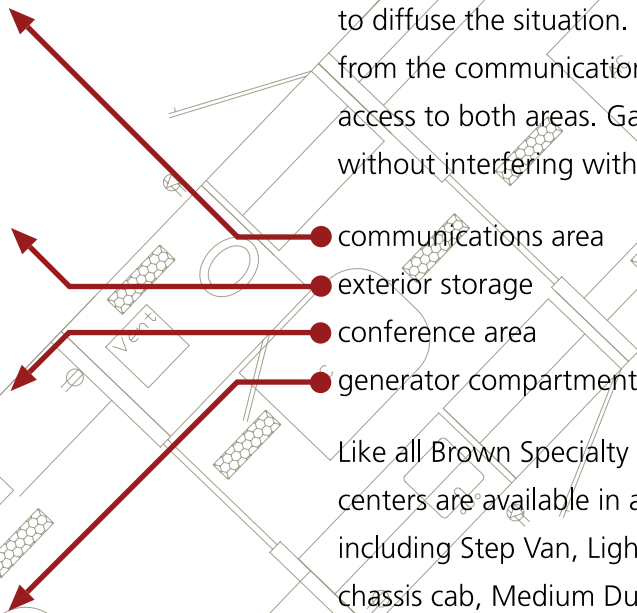

807 East 29th Street, Lawrence, Kansas 66046

sales@brownspecialtyvehicles.com

In an urgent situation you can't waste time scrambling for a piece of scratch paper.

Brown Engineers understand this, and have designed almost every possible surface in Brown Mobile Command Centers to be dry-erasable. Less time scrambling means more time to diffuse the situation. We have zoned the Command area from the communications center and created controlled access to both areas. Galley and restroom are easily accessible without interfering with work centers.

Like all Brown Specialty Vehicles, our mobile command centers are available in a number of different configurations, including Step Van, Light Duty chassis cab, Medium duty chassis cab, Medium Duty cutaway chassis cab, Fifth Wheel and Pull Tongue trailers, and more.
